An aerial photograph of Cape Town, South Africa, taken during the golden hour of sunset. The image shows the city's coastline, the harbor, and the surrounding mountains, including the iconic Table Mountain. The sky is a mix of soft pinks, oranges, and blues. Overlaid on the right side of the image are several white geometric shapes: a large diamond, a smaller diamond, and a series of vertical lines at the bottom right corner.

#### **BEACHES**

Cape Town's pristine beaches are voted among the best in the world. On one side, we have the Atlantic Ocean, and on the other, the Indian Ocean, each with unique characteristics. The two meet in a fluid blending of currents in False Bay, where the warm Indian softens the icy Atlantic.

#### **WEATHER**

The Cape Town region enjoys a lovely Mediterranean climate with average temperatures ranging from 12 °C to 21 °C. During the winter months (April to September), north and northwest winds backing to the southwest are frequent. In the summer (October to March), the prevailing wind is from the southeast, which can sometimes reach gale force speeds.

## **TRAINING & SKILLS DEVELOPMENT**

AS A BUSINESS, THE V&A SERVES AS A PLATFORM TO FACILITATE AND CHAMPION FOOD, ART AND DESIGN. THE AIM IS TO SUPPORT ENTREPRENEURSHIP AND INNOVATION, LEAD THE CHARGE ON SUSTAINABILITY, AND DRIVE POSITIVE SOCIAL AND ECONOMIC CHANGE.

Our vision is to create the perfect environment for businesses to develop and thrive. This means cultivating suitable conditions for growth by investing in skills that people can use to find employment in identified sectors. A key to ensuring that Cape Town is the go-to city on the African continent for business and trade is to enable its people to have the right skills and necessary training. The SUPER YACHT TRAINING ACADEMY in the V&A Waterfront is dedicated to develop the essential skills required by super yacht crew and focuses on the upliftment of the sailing and marine industry. The boat building and marine manufacturing sectors are essential to unlocking the ocean economy in Cape Town, the second-largest producer of recreational catamarans in the world. The city's 40-plus shipyards export 80% of items produced and directly employs more than 5 100 artisans, carpenters, engineers and nautical architects. Thousands more work in secondary industries that provide materials and components to shipyards across Cape Town.

To find out more about the academy, visit [www.superyachttrainingacademy.com](http://www.superyachttrainingacademy.com)

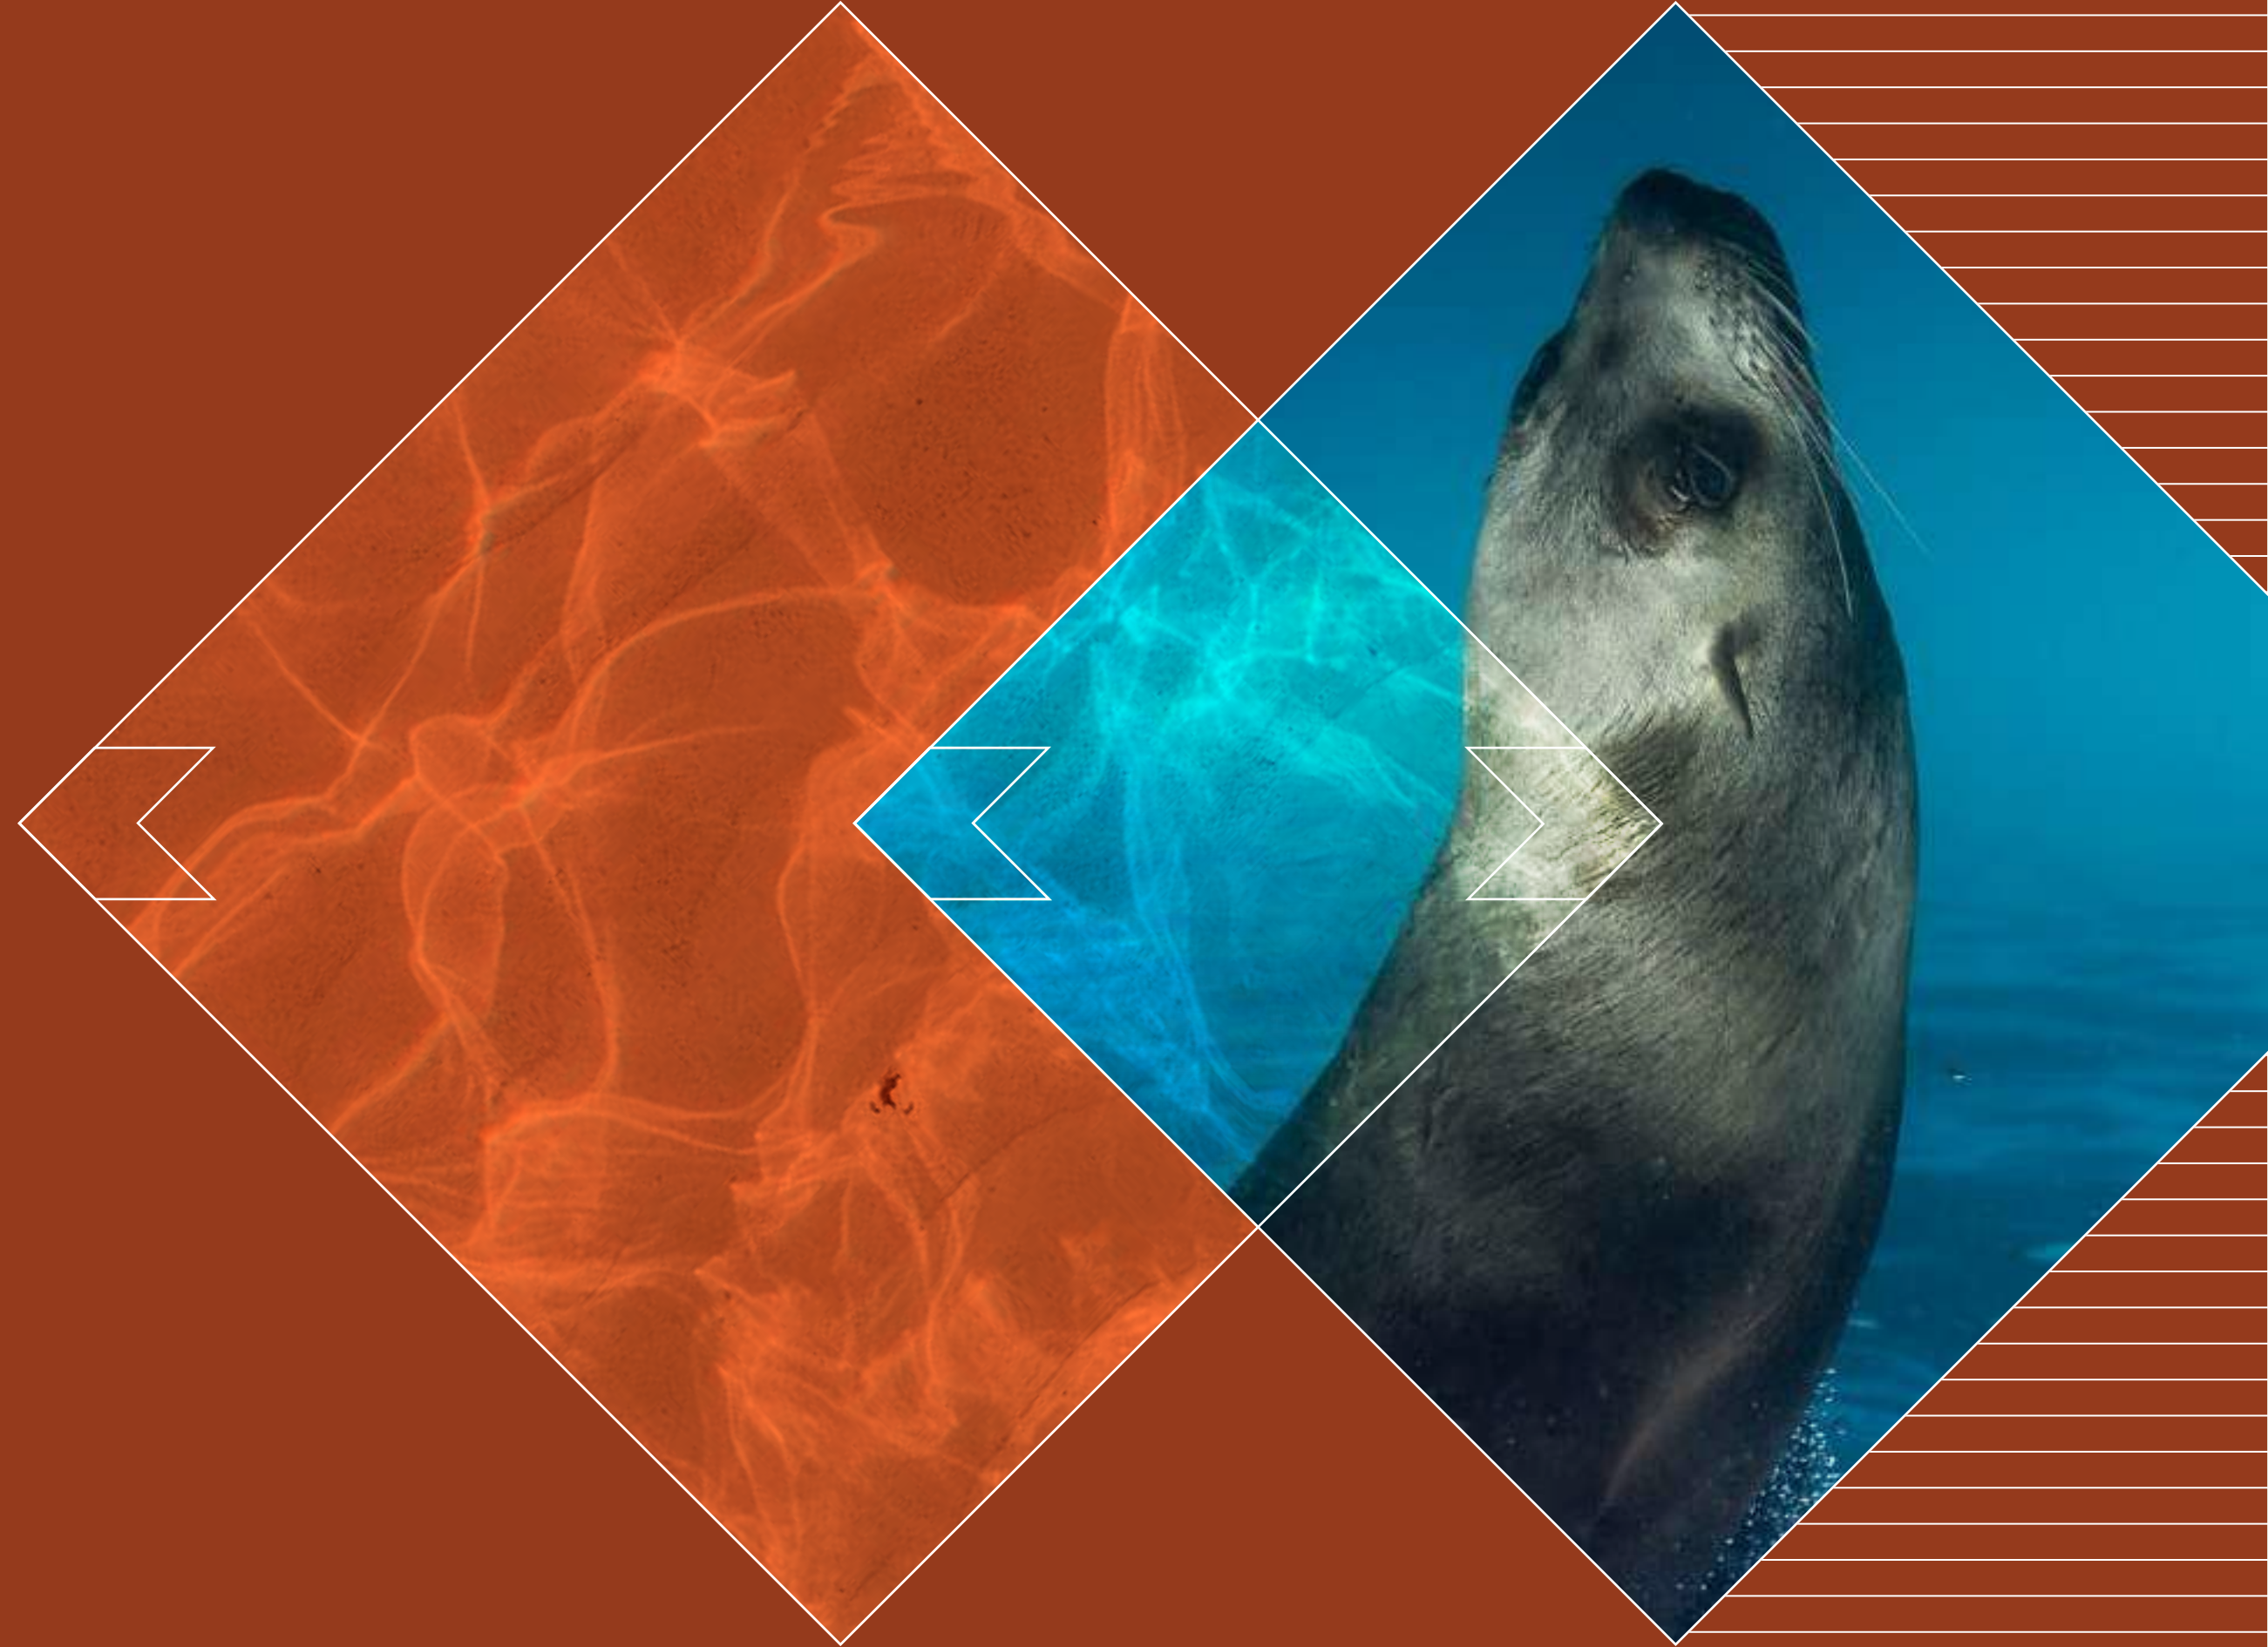

## SUSTAINABILITY

The newly launched Ocean Hub Africa is dedicated to ocean sustainability. The idea is to inspire and support scalable ocean-minded businesses to nurture an environmentally conscious and profitable economy that dramatically mitigates the effects of global warming and overexploitation, as well as the pollution of the oceans. To complete the picture, the V&A Waterfront is committed to establishing, promoting and improving a culture of economic and social sustainability and responsibility through all of its stakeholders. HEALTH &

SAFETY

IN LIGHT OF THE RECENT COVID PANDEMIC, **THE V&A WATERFRONT HAS GEARED ITSELF TOWARDS PUTTING THE SAFETY OF THE CREW AND GUESTS FIRST**, BY ALIGNING THE PORT AND GOVERNMENT REGULATIONS. THE REGULATIONS ARE UPDATED WHEN REQUIRED TO ENSURE THAT THE OFFERING IS FUTURE-PROOF.

1. All vessels wishing to berth in the V&A Harbour and all yachts wishing to berth in the V&A Marina, must have notified the Transnet National Ports Authority, (TNPA) Harbour Master 72 hours before arrival and ensure that all the necessary arrival notification documents have been completed.

2. All vessels and yachts wishing to make use of V&A berths must notify the V&A Waterfront after completing step 1 above. Communication for vessels via [shipping@waterfront.co.za](mailto:shipping@waterfront.co.za) and yachts via [yachtoffice@waterfront.co.za](mailto:yachtoffice@waterfront.co.za)

3. All international vessels and yachts visiting the Port of Cape Town, (including the V&A Waterfront), must be cleared by Port Health and obtain Free Pratique prior on arrival at Cape Town. Failure to arrange such clearance or non-adherence to the above will result in the vessel or yacht being denied access by Port Health, the TNPA Harbour Master and the V&A Waterfront.

4. Timeous arrangement must be made in advance for those that are arriving during weekends or night time when Port Health's offices are closed. No personnel, crew or passengers will be allowed off the vessel prior to receiving Free Pratique. All night time arrivals will

be required to go to anchor until daylight when the Authorities are able to carry out arrival procedures or as instructed by the Authorities.

5. Vessels and yachts will be required to go to anchorage whilst awaiting clearance to enter the V&A Waterfront. Once approval has been granted an isolation berth will be allocated. Yachts will be at the ISPS holding berths located at North Wharf and larger vessels at the ISPS cleared Jetty Two in the V&A Harbour.

6. The V&A Waterfront must be included in all correspondence to the various government departments and stakeholders, via [shipping@waterfront.co.za](mailto:shipping@waterfront.co.za) and [yachtoffice@waterfront.co.za](mailto:yachtoffice@waterfront.co.za)

7. No personnel may approach or board the yacht until the all clear has been issued by Port Health.

8. The above procedures are in place and will remain in force until advised otherwise.

9. These procedures are subject to change at short notice and it is important that you stay in contact with the Port and the V&A Harbour and Marina before your arrival.

# TRANSPORT & TRAVEL

THE V&A'S PRIME LOCATION DRAWS ON ITS HISTORY AS A QUICK AND CONVENIENT TRANSPORT HUB FOR THE MOTHER CITY.

## MYCITI BUS

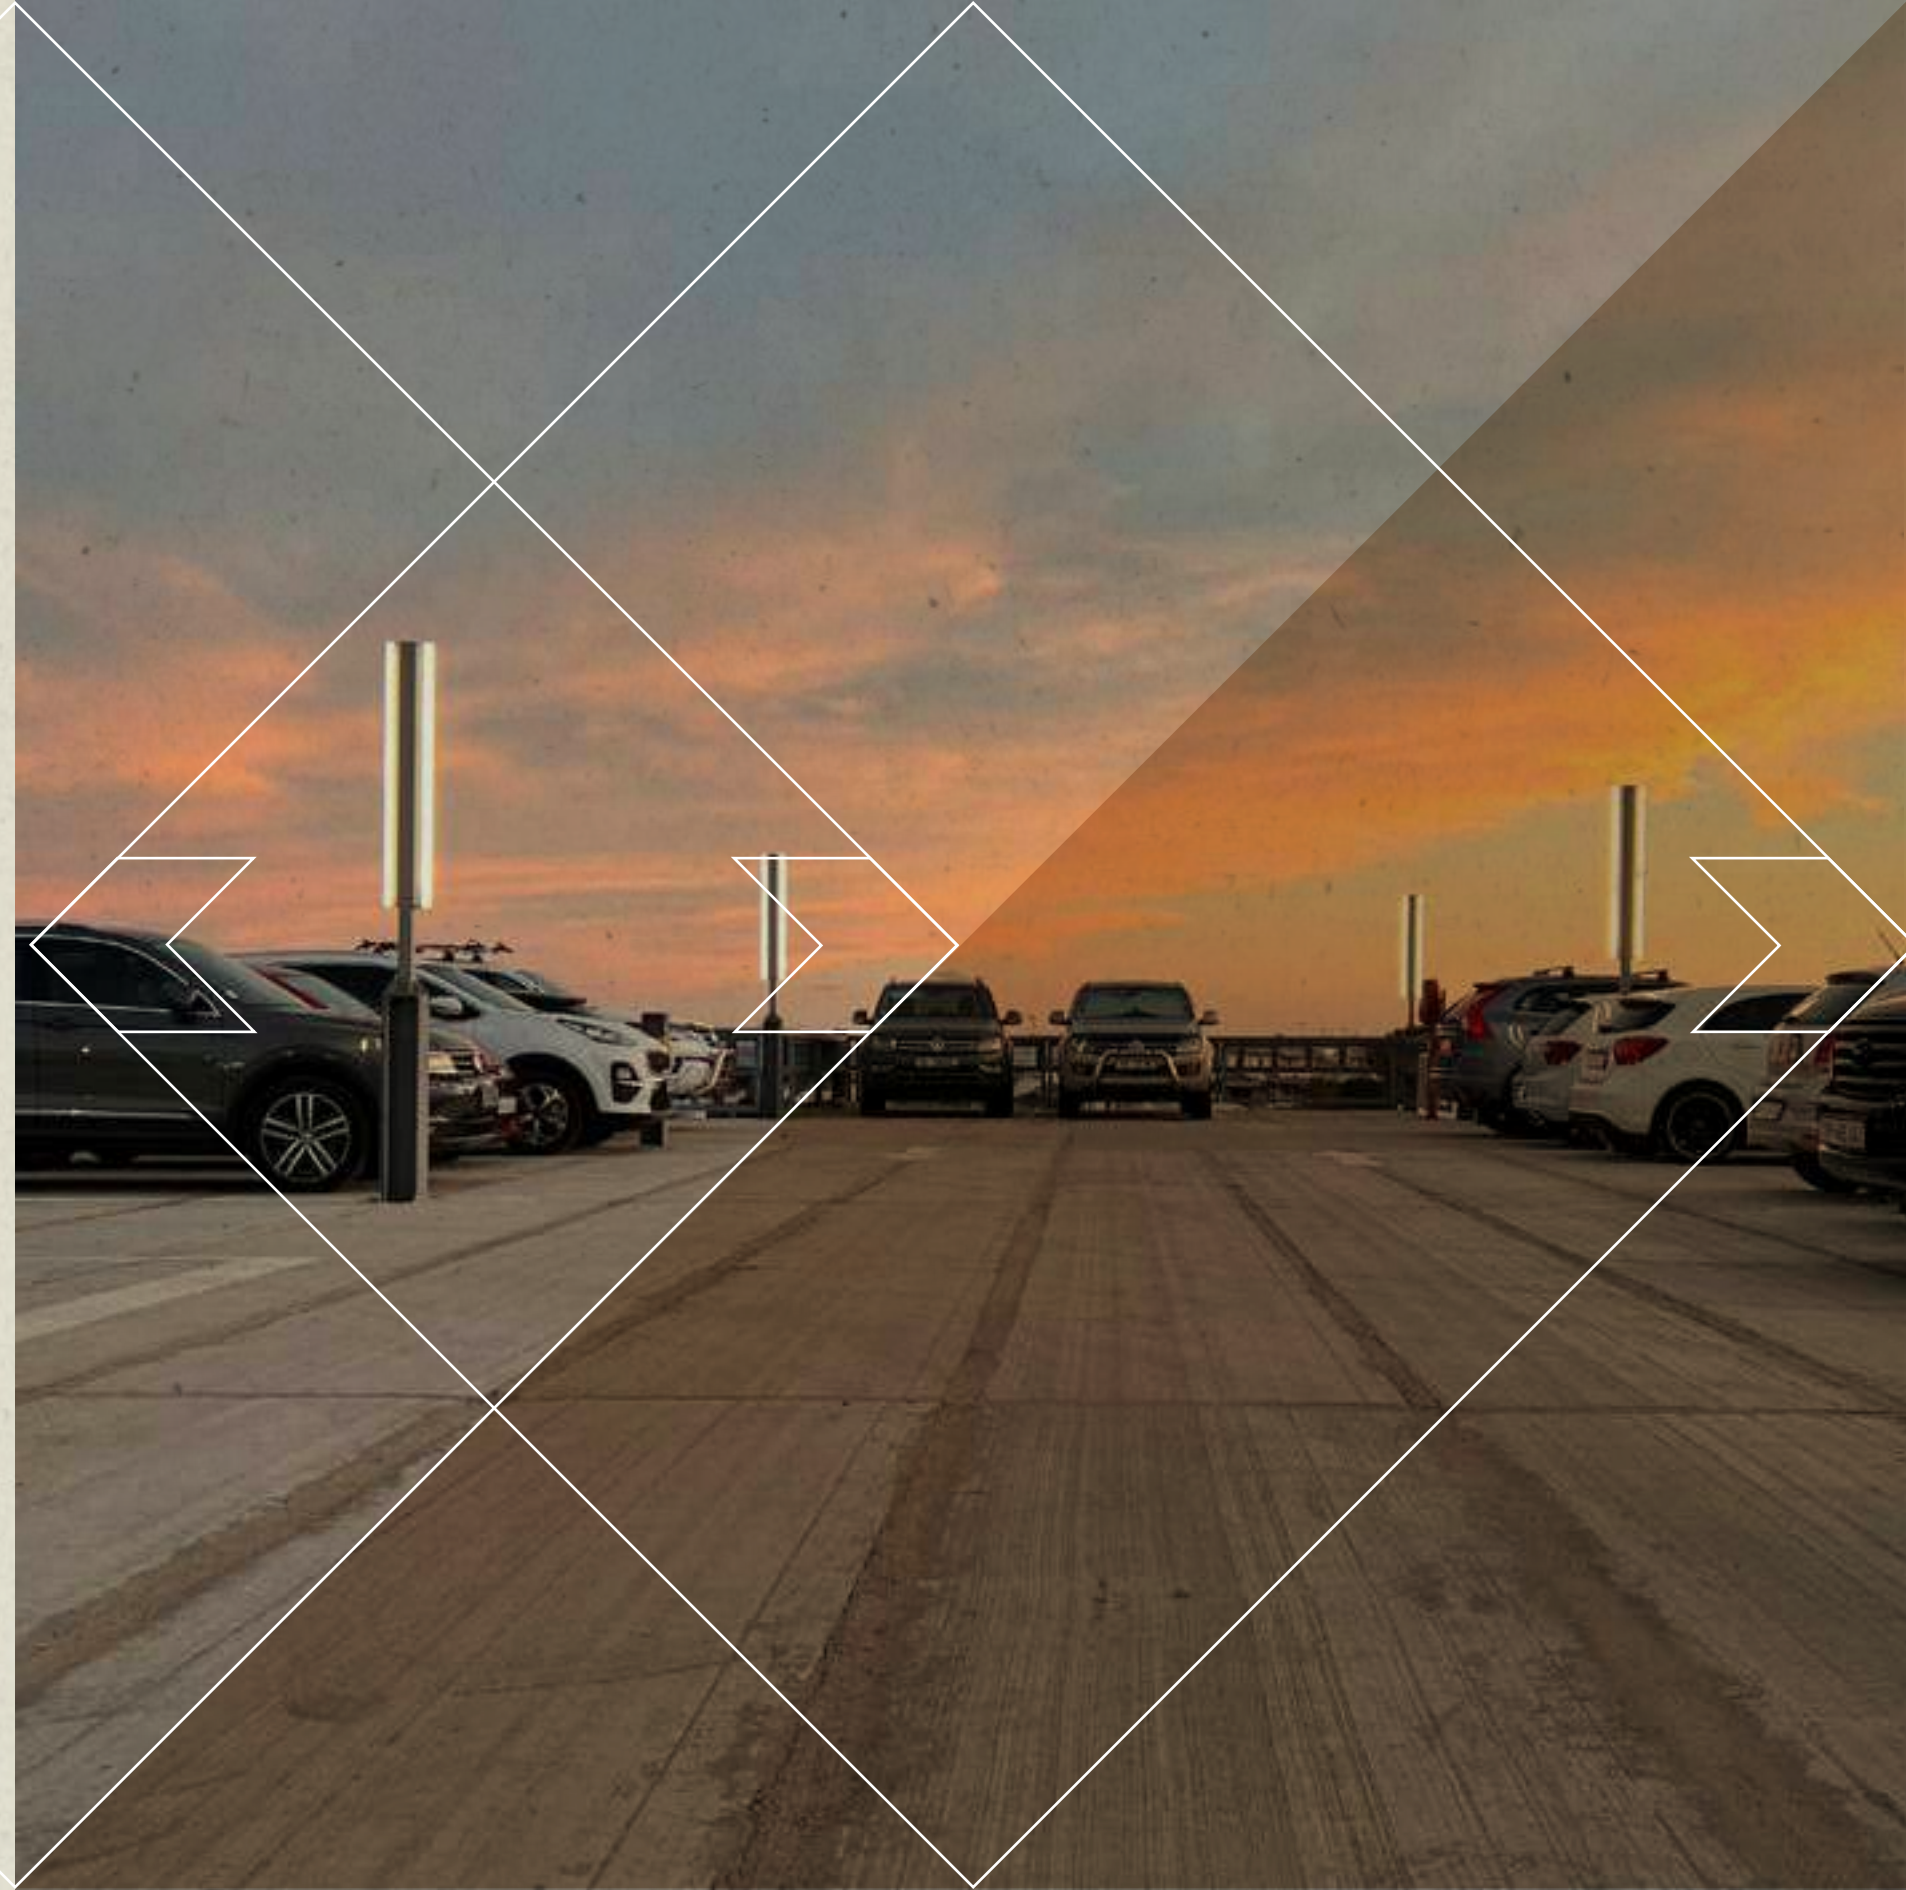

MyCiTi is Cape Town's bus rapid transport service, which provides safe and convenient public transport to and from the V&A Waterfront. The broader MyCiTi network continues to expand, covering the city centre along with outlying areas like Table View, Century City, Milnerton, Paarden Eiland, Mitchells Plain and more.

## TAXIS

While an Uber trip to the V&A Waterfront from anywhere in the city centre is likely to cost about R30, a metered taxi will cost slightly more (rising to R45 during peak hours).

## WATER TAXI

Far more than simply a hop-on/hop-off service for tourists, City Sightseeing's Canal Cruise water taxis provide a convenient, water-bound way to get between the V&A Waterfront and its neighbours along the Foreshore. Its four stops include the CTICC, Harbour Bridge, City Lodge and One&Only Cape Town.
